

Product Description

BCP® Air Dusters are ideal for the deep cleaning of passive and active equipment, without the use of wet cleaning products which can potentially cause damage. Air Dusters can quickly remove dirt, dust from fibre optic products.

Features & Benefits

- Compressed air
- Safe-use to clean keyboards, splice machines, fibre and copper ports
- Deep cleaning when it is hard to access with cloth or cleaning buds
- Extension pipe for precision and deep cleaning
- CFC free
- RoHS materials

Applications

- Computers, servers and switches
- Splice machines
- OTDRs and other FO and copper test equipment
- Fibre and copper ports, adaptors and connectors
