

Product Description

The BCP Combined Modem and LAN Box provides an ideal termination and mounting location for in-home structured wiring systems and components. The Combined Modem and LAN Box allows the full reach of a wireless network, as opposed to standard metal enclosures that can limit the range of a wireless signal.

Features & Benefits

- ABS polymer construction
- 180-degree hinged cover
- ANSI/TIA-568-C.2 Standard of 2009
- ANSI/TIA-568.0-D Standard of 2017
- Seven 1-inch and three 2-inch knockouts plus additional 1-inch nested knockouts
- UL-rated RoHS compliant materials
- Allows for installation of two single-gang J-boxes or a single full-size power module
- Vented door

Applications

- Soho
- LAN
- Hotels

Technical Specifications

Material	ABS polymer
Dimensions (mm)	420x320x100
Type	RJ11/RJ45 Combined
Modules Accepted	Up to 12 with use of Briticom® 12-Port Mounting Bracket

Ordering Information

Use combinations of **bold** letters and numbers to create part numbers for ordering.
