

Product Description

BCP® faceplates are designed to hold telecommunications connectors at wall-mounted or other cable termination outlets. Their easy-to-install design makes them ideal for both data and voice applications. Just add your preferred keystone jack, also available from BCP. The clip-on assembly design of our wall plate frame and modules ensures simple installation and maintenance. Our wall plate modules, available in 1- or 2-port options, feature spring-shutter openings.

Features & Benefits

- Flat single gang
- 45° Angled
- Integral shutters
- Complete faceplate just requires keystone jacks
- Single, double port options

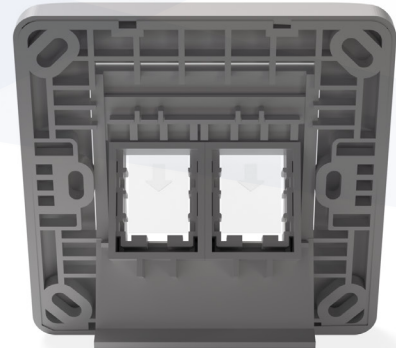

Applications

- LAN installations
- Offices
- Apartments
- Hotels
