

Product Description

The BCP® US faceplate is a versatile and durable solution designed for seamless integration into your electrical setup. With a single-port configuration, it supports flush-mounted installation and is compatible with floor boxes, making it ideal for both residential and commercial applications. Constructed from high-quality thermoplastic, it offers excellent durability and a clean, white finish matching RAL-9003 standards. Featuring precise dimensions—70.32mm in width and 114.54mm in height—it includes an aperture size of 14.72mm x 16.28mm for easy component accommodation. Secured by screw mounting, this faceplate ensures a reliable and straightforward installation.

Features & Benefits

- 6 Port
- Flush Mounted Installation
